Over the counter medication:

Wording that indicates medicine may contain an antihistamine:

- Allergy
- Cold
- Flu

Prescription Medication:

There are many generics for the above medications. If patient was prescribed an oral medication for cough or allergies that is not on the above list have patient ask their pharmacist if they are not sure or call the Allergy department at 215-590-2549.

Inhaled medications and nasal sprays **except Astelin** do not contain antihistamines.
