

## Internship Admissions, Support, and Initial Placement Data

Date Program Tables are updated: 8/26/2024

### Program Disclosures

<b>Does the program or institution require students, trainees, and/or staff (faculty) to comply with specific policies or practices related to the institution's affiliation or purpose? Such policies or practices may include, but are not limited to, admissions, hiring, retention policies, and/or requirements for completion that express mission and values?</b>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<b>If yes, provide website link (or content from brochure) where this specific information is presented:</b>	
<a href="https://www.chop.edu/centers-programs/psychology-education-and-training-program/internship-program">https://www.chop.edu/centers-programs/psychology-education-and-training-program/internship-program</a> (this references institutional policies, program mission and values); <a href="https://www.chop.edu/centers-programs/psychology-education-and-training-program/internship-program/structure-and-requirements">https://www.chop.edu/centers-programs/psychology-education-and-training-program/internship-program/structure-and-requirements</a> (internship program requirements for completion)	

## **Internship Program Admissions**

**Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:**

**A high priority is placed on selecting candidates who are the strongest match given their training goals and the program mission. This includes applicants who intend to pursue a career integrating research and practice, focus on working with underserved medical populations, and those who demonstrate leadership interests. Interns must be in good standing in a doctoral program in professional psychology accredited by American Psychological Association (APA).**

**Nine internship positions are available, matched to the following internship program tracks: Clinical Child Psychology (1), Pediatric Psychology (2), Pediatric Neuropsychology (1), Autism Spectrum Disorders (1), and Integrated Behavioral Health Care (4).**

**At the time of submitting an application, applicants should have completed 500 hours or more of supervised clerkship, externship or practicum training. It is preferred that applicants have at least 250 externship hours related to assessment, and at least 250 hours related to intervention/consultation. Our program recognizes that for the 2024-2025 application cycle, the APPI experience hours accrual end date has been moved to October 1st (one month earlier than in the past). We will apply our pre-internship hours accrual guidelines described above with this in mind.**

**COVID-19 – For applicants for the 2025-2026 internship class, the program understands that training experiences may have been negatively affected by the COVID-19 pandemic. The program will take into account that since March 2020, training placements and experiences were likely modified due to physical distancing and quarantining, as well as including telehealth-based clinical training experiences. We plan to adjust our typical expectations for clinical training hours accumulated by the time of application. Applicants are encouraged to describe in their cover letter and/or application materials the impact of the COVID-19 pandemic on their training plans.**

**By the beginning of the internship, it is required that applicants will have completed all major graduate program coursework requirements and qualifying examinations for their doctoral degree and have only the dissertation requirement to meet.**

**We expect applicants to have successfully defended a dissertation proposal and to have collected data for the dissertation study prior to the start of the internship, and we will give preference to those applicants who have completed their dissertation defense. The intern should have a reasonable certainty of being granted the doctoral degree within one year of starting the internship.**

**Trainees must be citizens of the United States, non-citizen nationals of the United States, or foreign nationals who possesses visas permitting permanent residence in the United States. Individuals on temporary or student visas are not eligible participants.**

**To carry out its mission, it is of critical importance for Children's Hospital of Philadelphia (CHOP) to keep our patients, families and workforce safe and healthy and to support the health of our global community. In keeping with this, CHOP has mandated all workforce members (including trainees) on site at any CHOP location for any portion of their time be vaccinated for COVID-19. This mandate also applies to workforce members or trainees providing patient care at non-CHOP locations. CHOP also**

requires all workforce members and trainees who work in patient care buildings or who provide patient care to receive an annual influenza vaccine. Candidates other than those in positions with regularly scheduled hours in New Jersey, must attest to not using tobacco products. Employees may request exemptions to any CHOP vaccine requirement for religious and medical reasons. Children's Hospital of Philadelphia is an equal opportunity employer. We do not discriminate on the basis of race, color, gender, gender identity, sexual orientation, age, religion, national or ethnic origin, disability, protected veteran status or any other protected category. CHOP is a VEVRAA Federal Contractor seeking priority referrals for protected veterans.

It is Children's Hospital of Philadelphia's policy not to discriminate against a candidate for employment (including internship) on the basis of a physical handicap or mobility problem. If an intern with a physical handicap or mobility problem is selected for our program, we will work collaboratively with professionals in our Departments of Human Resources, Physical Therapy, Occupational Therapy, Audiology, Speech and Language to develop suitable accommodations.

We strongly encourage all candidates of diverse backgrounds and lived experiences to apply.

Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:

Total Direct Contact Intervention Hours	Yes		Amount: 250 hours
Total Direct Contact Assessment Hours	Yes		Amount: 250 hours

Describe any other required minimum criteria used to screen applicants:

Evidence of at least 2 child/adolescent assessment reports and at least 2 child/adolescent psychotherapy cases.

### Financial and Other Benefit Support for Upcoming Training Year\*

Annual Stipend/Salary for Full-time Interns	\$38,500.00

\*Note. Programs are not required by the Commission on Accreditation to provide all benefits listed in this table

## Initial Post-Internship Positions

(Provide an Aggregated Tally for the Preceding 3 Cohorts)

	2021-2024	
Total # of interns who were in the 3 cohorts	27	
Total # of interns who did not seek employment because they returned to their doctoral program/are completing doctoral degree	0	
	PD	EP
Academic teaching	0	0
Community mental health center	0	0
Consortium	0	0
University Counseling Center	0	0
Hospital/Medical Center	27	0
Veterans Affairs Health Care System	0	0
Psychiatric facility	0	0
Correctional facility	0	0
Health maintenance organization	0	0
School district/system	0	0
Independent practice setting	0	0
Other	0	0

Note: "PD" = Post-doctoral residency position; "EP" = Employed Position. Each individual represented in this table should be counted only one time. For former trainees working in more than one setting, select the setting that represents their primary position.
