

PATIENT INFORMATION LAST NAME: FIRST NAME: PATIENT ID / MED REC #: DOB: GENDER: MALE FEMALE UNKNOWN PHYSICIAN NAME: PHYSICIAN PHONE: PHYSICIAN SIGNATURE:	REFERENCE LABORATORY BILLING INFORMATION ***WE DO NOT BILL PATIENTS OR THEIR INSURANCE COMPANIES*** INSTITUTION: ADDRESS: CITY: STATE: ZIP: PHONE: FAX: CONTACT NAME: PHONE: FAX:																																																																																	
<p>By using and sending this Requisition Form to CHOP Outreach Lab for laboratory testing, you, the sender, acknowledge and agree that you have read and agree to the CHOP Terms and Conditions posted at www.chop.edu/labs and agree to pay CHOP the rates in CHOP's fee schedule in effect on the date the specimen is received.</p>																																																																																		
Required Information for New York State Patients ***ONE OF THESE MUST BE CHECKED OR TESTING WILL NOT BE PERFORMED*** Informed Consent for Genetic Testing is on file in Physician's Office Physician has initialed that consent for Genetic Testing was discussed with Patient. Initials: Date:	Required for all NJ & PA Newborn Screening Patients ***PLEASE CHECK THE APPROPRIATE STATE SCREENING PROGRAM INFORMATION*** <table style="width: 100%;"> <tr> <td style="text-align: center;">NJ NBS Program</td> <td style="text-align: center;">Initial Testing</td> <td style="text-align: center;">Continued Monitoring</td> </tr> <tr> <td style="text-align: center;">PA NBS Program</td> <td style="text-align: center;">Initial Testing</td> <td style="text-align: center;">Continued Monitoring</td> </tr> </table>	NJ NBS Program	Initial Testing	Continued Monitoring	PA NBS Program	Initial Testing	Continued Monitoring

Testing Requested																																																																																		
Amino Acid Quantitation	P	S	U CSF																																																																															
Acylcarnitine Profile	P	S																																																																																
Carnitine (Total & Free)	P	S																																																																																
Methylmalonic Acid Quantitation	P	S																																																																																
Infliximab	P	S																																																																																
N-glycan	P	S																																																																																
Carbohydrate Deficient Transferrin	P	S																																																																																
Ketone Body Panel	B																																																																																	
Glutathione	B-EDTA		Kit																																																																															
OxPhos	F																																																																																	
Leuckocyte CoQ10	B-EDTA																																																																																	
Testing Requested																																																																																		
Gal1PO ₄ Uridyltransferase (GALT) Activity	B	wRBC																																																																																
Gal1PO ₄ Analysis	B	wRBC																																																																																
Galactokinase Enzyme Activity	B	wRBC																																																																																
Epimerase Enzyme Activity	B	wRBC																																																																																
Disaccharidase Analysis	DB																																																																																	
Organic Acid Analysis	U	CSF																																																																																
Orotoic Acid Quantitation	U																																																																																	
Galactitol Analysis	U																																																																																	
MPS and Oligosaccharides	U	CSF																																																																																
Pyruvate-Lactate	Kit
